Subtle Enhancements for a Naturally Refreshed You

At Silk Dental, we're here to help you feel confident in your own skin. Our facial aesthetic treatments, including anti-wrinkle injections and dermal fillers, subtly enhance your natural beauty and rejuvenate your appearance.

Anti-Wrinkle Injections

Anti-wrinkle injections, often called Botox®, relax facial muscles to reduce fine lines and wrinkles, creating a refreshed, youthful look. Commonly treated areas include:

- *Forehead lines*
- *Frown lines*
- *Crow's feet*

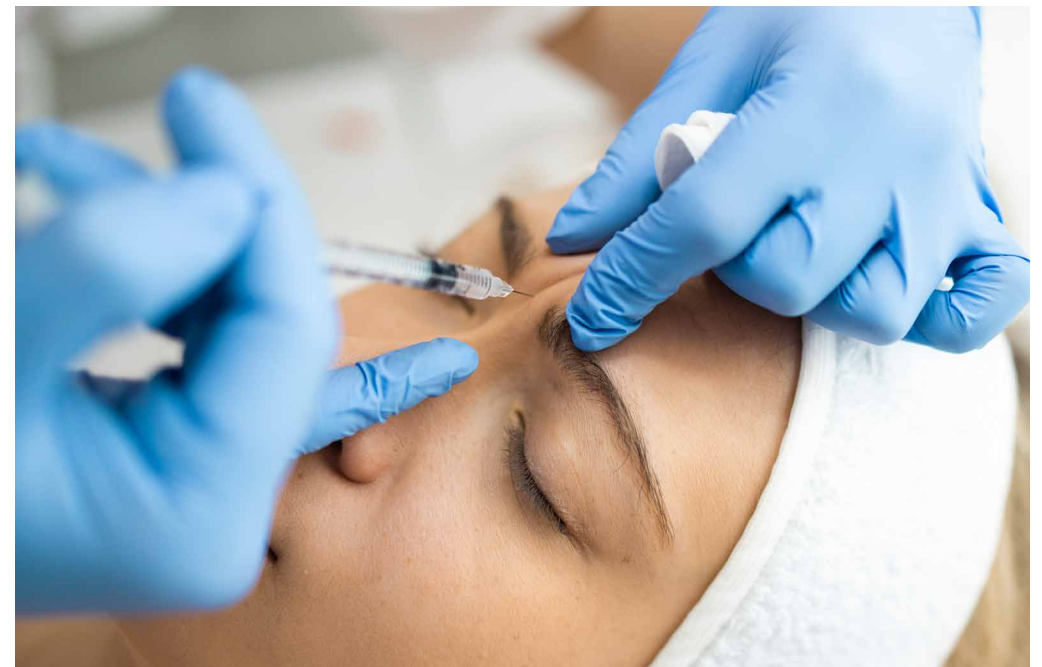

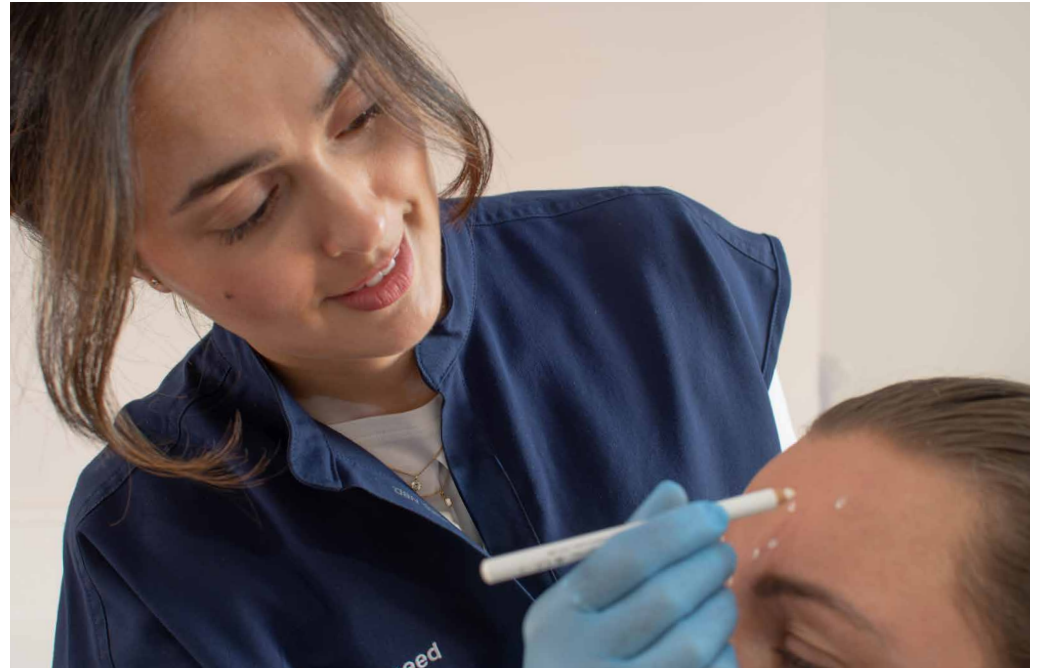

The treatment takes about 20 minutes, with minimal discomfort. Results appear in 3-5 days and last 3-6 months.

Dermal Fillers

Dermal fillers, made from hyaluronic acid, restore volume, contour the face, and enhance features like lips and cheeks. They are commonly used for:

- *Plumping lips*
- *Adding cheek volume*
- *Smoothing nasolabial folds*
- *Contouring the jawline*

Results are visible almost immediately and last 6-18 months, depending on the area.

I wasn't entirely looking forward to a 2-hour root canal procedure but was pleased to say Afzal and Sam kept me comfortable and informed of everything that was being done. I left the surgery very happy.

Very happy with the treatment I received, felt pain free & they walked me through the procedure to keep me in the loop as to what was happening. Gives great advice on how to keep my teeth & gums healthy. Highly recommended.
